

Amendments to the list of goods codes in the international trade in goods statistics starting with reporting month January 2022

The list of goods codes changes yearly.

Amendments to the combined nomenclature (CN) - and therefore the list of goods codes (CN-code) - are based on the Regulation of the European Commission: [List of goods codes 2022 - Official Journal: combined nomenclature; valid from 1.1.2022 \(PDF\)](#)

It is necessary to amend the list of goods codes yearly in order to take account of changes in requirements relating to statistics, to trade policy as well as technological and commercial developments. These changes have been taken into account by the European Commission while implementing the new Regulation.

These amendments lead to yearly introductions of new goods codes as well as to deletions or revisions of currently valid goods codes.

In the Regulation itself new goods codes are marked with a star (★); amendments in the description of goods codes are marked with a square (■), which means that these goods codes remain unchanged while their description have been modified.

There also might be changes with regard to supplementary units.

The Regulation enters into force on 01 January 2022 and is valid for the whole reporting year 2022.

The allocation of goods to an individual goods code must always be made according to their specific nature.

Deletions or introductions of goods codes could also indicate changes of their respective subheadings (CN2-, CN4- and CN6-codes).

The following tables (no.1-6) are just indicative - they serve as an aid for the allocation of goods to goods codes.

1. Comparison: goods codes 2021 to goods codes 2022 (transposition list)
2. Amendments: supplementary unit; *valid* from 1.1.2022
3. Amendments: goods codes remain unchanged while the description has been modified as of 1.1.2022 (reused)
4. Deletion: goods codes which are *invalid* from 1.1.2022
5. Introduction: new goods codes which are *valid* from 1.1.2022
6. Comparison: goods codes 2021 to goods codes 2022 (transposition list) with description

Please don't forget to implement all relevant amendments on time.

The latest date for submitting the reporting month January 2022 is 14 February 2022.
